ABOUT

Hands- on technology leader with 9+ years of frontend experience. Specializing in React, NextJS and TypeScript. Skilled in leading teams, creating user-friendly interfaces, and enhancing system performance and stability. Fueled by innovation and the fun of coding, I am excited to join a team where I can apply my experience and collaborative spirit to drive success and inspire collective growth.

EXPERIENCE

Dats.Team, Nicosia, Cyprus

Senior Frontend Developer May, 2024 – Present

- **Migrated** React application to **Next.js + App Router**
- **Implemented translations for 50+ countries** using next-intl
- Developed caching system with **SWR reducing server load by 35%**
- Created reusable **UI-kit components**
- **Optimized build** time **from 85** seconds **to 26** seconds

Intelligichain, Irvine, California

Senior React Native Developer · Jul, 2024 – Oct, 2024

- **Launched mvp: mobile app from scratch** using React Native, Expo
- Integrated **Airtable API** for data persistence and user management
- Implemented **push notifications** and **user authentication**
- Managed state with **Zustand** and used **TypeScript** for type safety
- Designed **responsive UI** with **NativeWind** for styling

Etalon, Moscow, Russia

Lead Software Engineer Jan, 2024 – May, 2024

- **Kanban Board Implementation:** Created a Kanban board with custom drag-and-drop functionality, infinite scrolling in each column, and features like sorting, filtering, positioning, and creating new columns. The board's settings were cached with React Query and stored in metadata, allowing consistent configuration across multiple devices.
- **Custom File Uploader Component:** Developed a robust file uploader component with multiple upload methods—button click, icon click, drag-and-drop, and within input fields or textareas. The component featured a custom carousel, with options to add, delete, copy, save, and etc, and was deployed in 7+ applications for consistent user experience.
- **Enhancing Test Coverage and Onboarding:** Added detailed JSDoc comments to the streamline onboarding and test coverage to ensure reliability. This reduced entry threshold for new team members, boosting collaboration and code maintainability.

Formind (startup), Moscow, Russia

Senior Frontend Developer Dec, 2022 – Dec, 2023

- Optimized React interfaces by encapsulating logic within hooks, enhancing performance and code maintainability.
- Reduced product delivery process by 20% through integration of e2e testing, boosting development efficiency and reliability.
- Developed a key module contributing to new customer acquisition, directly impacting business growth.
- Decreased bundle size by 25% and improved page load speed by 30%.
- Lead maintainer of internal UI and Features libraries, ensuring modularity and widespread use across the company.
- Conducted interviews to assess and select qualified candidates, contributing significantly to the team-building process.

Samolet, Moscow, Russia
Lead Frontend Developer · Dec, 2019 – Dec, 2022

- Boosted Online Client Engagement by 140%: Enhanced client interaction and project delivery through web apps for a complex construction service network.
- Reduced Bug Rate by 30%: Transitioned projects from JavaScript to TypeScript, improving code quality with ESLint and Prettier.
- Promoted Continuous Improvement: Facilitated team retrospectives, fostering a collaborative, improvement-focused culture.
- Expanded Digital Reach and User Engagement: Developed a React Native mobile app, broadening audience reach and user interaction.

The Best App, Nizhniy Novgorod, Russia
Team Lead Frontend· Mar, 2019 – Dec, 2019

- Developed an Educational Platform with React/Redux: Streamlined learning experience through a custom, interactive online platform.
- Managed a Team of Three using Scrum: Implemented daily code reviews to enhance team efficiency and code quality.
- Coordinated Frontend and Backend Teams: Ensured seamless integration and collaboration for optimal project outcomes.

Yaat, Nizhniy Novgorod, Russia
